Using Mobile in Blended Learning

Context Info

Audience

Ideas

Consider the Learner's Context

🔺 Analyze to uncover any technology limitations.

🔴 Consider the training context (user access, security, bandwidth, environment).

🕐 Determine a measurement plan at the start (not the end).

🔻 Define crystal-clear learning outcomes.

Execution Ideas

Use **just in time** and **just enough** learning in **bite-sized pieces** that's ...

...made for mobile

Consider:

☑ Checklists   ➕ Job Aids

📲 Podcasts   🎵 Videos

📊 Infographics   🗂 Polling

🧮 Apps to access a learning library

🔍 Quick Evaluation / Ratings

💬 Peer Collaboration with Group texts + Social media

Examine Your Audience

Examine your audience demographics and their experience level with technology. Adapt your plan accordingly.

Develop incentives for participation if needed.
