Make Your Virtual Training Social

PROVIDE COLLABORATION PLATFORMS IN YOUR LEARNING PATH

Offer chat-enabled video conferencing, social enterprise network tools (e.g. Yammer) or even simple forums for posting, polls, and discussion boards.

FACILITATE GROUP DISCUSSIONS

Design group discussions (e.g. team challenges, case studies, brainstorming). Guide asynchronous activities with a facilitator. Guide synchronous small group discussions via clear instructions.

GET CREATIVE WITH THE SOCIAL ACTIVITIES

Try role-playing games with defined roles. Or let participants be the trainer and teach their peers.
